## Noise

Neighbour noise such as ear-splitting music, slamming doors, barking dogs, late night parties and DIY noise can greatly impact on people's daily lives.

Most of the noise complaints we receive are about low-level noise such as loud televisions. Often people do not realise that they are being noisy and a quiet word will often resolve the situation.

If you have spoken to your neighbour and you are still experiencing problems of noise you should **contact us**, alternatively you can contact your local Council for advice.
